Interns will help to prepare the set for the day's filming and help run the set during the work involved and finally keeping the set clean and safe for the duration of filming.

General Production Assistants will float between departments helping with wardrobe, camera, locations, and the Assistant Directors. Departments may vary from day to day depending on the location and scenes being filmed.

Other responsibilities include the distribution of production paperwork (scripts and call sheets).

Escorting actors and coordinating extras.

Work crowd control, ensure pedestrian safety, create and hang signage, protect "lockdown" of set during filming.

Perform administrative objectives to keep the set running smoothly.

Undertake errands as assigned.

A Channel of Peace is looking for serious-minded people with a sense of fun when appropriate and a hope to learn filmmaking from the inside out with seasoned Hollywood professionals.

Individuals who follow direction implicitly but possess a desire to problem solve as situations arise.

Skills that may be helpful for this position:

- Experience in filmmaking or a desire to learn.
- Ability to multitask and prioritize.
- HS graduate who is currently either enrolled in college level classes or is a recent college graduate

This is an unpaid internship and candidates would be expected to work approximately 40 to 70 hours per week alongside professional filmmakers.

References would be available for the candidate following successful completion of the internship.

Interns would also receive Credit on the final feature film and their work will be acknowledged on social media. They might appear in the MAKING OF featurette included (generally) in the film's video release.
